

**ECOTRICITY PLANNING APPLICATIONS 16/00241FUL & 17/00072/FUL
ERECTION OF BIOMASS-BASED ANAEROBIC DIGESTION FACILITY AND
ASSOCIATED WORKS**

**PLANNING APPEALS
APP/G1630/W/17/3174163 & 3177872**

ADDENDUM

**THIRD PARTY STATEMENT OF CASE PREPARED ON BEHALF OF
SAVE OUR LANES**

17 OCTOBER 2017

ADDENDUM

Further to the submission by Save Our Lanes dated 12th October 2017 we wish to add the following statement:

We respectfully refer the Secretary of State to case numbers APP/L3815/C/15/3133236 & APP/L3815/C/15/3133237 & APP/P3800/W/3134445 Crouchlands which is also for an AD Plant where we believe there are parallels between the above and this Appeal. Specifically we refer to the following within the above decision:

- Highway Safety and the degree of harm that any highway mitigation would cause - clauses 57 to 71
- The effects on living conditions and the impact on public amenity that the operation will create - clauses 72 to 77
- The impact on Landscape character - clauses 78 to 88
- The need for and siting of the facility - clauses 89 to 101 and specifically clause 100

There may be other parallels between the above and the Appeal that you are now hearing hence drawing this to your attention. Our planning advisor Andrea Pellegram has personal experience with the above Crouchland case and if required will be able to provide further evidence of these parallels.
